

International Journal of Signal Processing Systems

CONTENTS

Volume 3, Number 1, June 2015

Image and Signal Processing

- Speech Emotional Classification Using Texture Image Information Features 1
Kun-Ching Wang
- A Robust Image Encryption Method Based on Bit Plane Decomposition and Multiple Chaotic Maps 8
W. Auyporn and S. Vongpradhip
- An Image Retrieval Method Using Homogeneous Region and Relevance Feedback..... 14
Vu Van Hieu and Nguyen Huu Quynh
- On Image Based Fast Feedback Systems for Academic Evaluation 19
E. Gershikov and S. Kosolapov
- Analysis on Extraction of Modulated Signal Using Adaptive Filtering Algorithms against Ambient Noises in Underwater Communication..... 25
S. S. Murugan, S. Prethivika, and V. Natrajan
- MFCC Based Text-Dependent Speaker Identification Using BPNN 30
S. S. Wali, S. M. Hatture, and S. Nandyal
- High Gain Vivaldi Antenna for Radar and Microwave Imaging Applications 35
G. K. Pandey, H. S. Singh, P. K. Bharti, A. Pandey, and M. K. Meshram

Networking and Communication

- A Precise Synchronization Scheme Using in the Underwater Acoustic Communication System Based on FRFT-OFDM..... 40
Na-Na Huang, Hong Lei, and Jia-Chun Zheng
- Determination of MIMO Channel Capacity and Enhancement of MIMO System Performance Using Tomlinson Harashima Precoding..... 47
A. K. Grewal and S. Chakravorty
- Design of an Ag Plasmonic Nanowire Waveguide with Long Propagation Distance 53
Yuan-Fong Chau
- Power and Area Efficient Hardware Architecture for WiMAX Interleaving 60
Zuber M. Patel
- Bayesian Multiple Estimation in Flat Rician Fading MIMO Channels..... 65
H. Nooralizadeh
- Secure and Efficient Intermediate Node Authentication in Wireless Sensor Networks 71
R. C. Choukimath and V. V. Ayyannavar

Information Management

Future Trends in Spatial Information Management: Suggestion to New Generation (Internet of Free-Open)75
Yongwon (Conrad) Cho and Sunwhie Hwang

A Study on LBS Technique Make for CRETA LBS Platform Service82
Yongwon (Conrad) Cho and Sunwhie Hwang

Availability Enhancement Model for Virtual Machines over Hypervisor Attacks88
A. Ravishankar and C. Subramaniam
